

## Press Release

### NETCO Launches EVITP, Instructor Training

#### **Mississauga Ontario Canada, August 2013**

In keeping with Robertson Bright's continued support of the EVITP (Electric Vehicles Infrastructure Training Program) our "RBI VOLT" was on display for the official launch of the Instructor Training pilot sponsored by NETCO in Mississauga on July 22, 2013.

This event was made possible by the Ontario Electrical Industry Training Trust Fund who hosted the EVITP training session, the IBEW Local 353 for allowing the use of its Mississauga Training Centre, and as well as EATON who is the sponsor of the charging equipment.
