

RBI is a quality electrical and communication services firm, helping clients with our expertise in industrial maintenance, commercial construction, network cabling, VOIP telephony and design build.

Journeyman Electrician

As a Journeyman Electrician focused on Industrial, Commercial and Institutional (ICI) projects you will:

- Install and energize electrical cabling, switchgear and fixtures;
- Install raceway, conduit and cable tray systems;
- Troubleshoot electrical and control systems.

As a successful candidate you will have:

- A valid California State Certified General Electrician Card
- Ability to perform physical tasks including lifting, bending, squatting, walking and climbing a ladder
- 3+ years ICI electrical experience

Catch the vision and join our team.
