

RBI is a quality electrical and communication services firm, helping clients with our expertise in industrial maintenance, commercial construction, network cabling, VOIP telephony and design build.

## Electrical Service Manager

As the Electrical Service Manager you will:

- *Establish, implement and maintain a best in class tracking and dispatch protocol for service in all RBI geographic regions;*
- *Create sales and business development plans;*
- *Be highly responsive to client electrical service and maintenance requirements;*
- *Manage 24/7 emergency service team availability.*

As the successful candidate you will have:

- *Proven success as a service / maintenance manager in the electrical or mechanical service industry;*
- *5+ years of experience coordinating service dispatch;*
- *Expertise in GPS tracking and the MS-Office suite of software;*
- *Demonstrated decision making based on the P&L.*

Catch the vision and join our team!
