

RBI is a quality electrical and communication services firm, helping clients with our expertise in industrial maintenance, commercial construction, network cabling, VOIP telephony and design build.

Electrical Pre-planner

As an Electrical Pre-planner you will:

- *Review scope, design and specification details for secured projects to determine the best methods of execution;*
- *Conduct take-offs to evaluate various implementation options;*
- *Compile complete build plans to field staff for installations;*
- *Attend pre-construction site visits.*

As the successful candidate you will have:

- *A minimum of 10+ years of electrical construction experience;*
- *A construction/engineering degree or equivalent training and experience;*
- *Demonstrated written and verbal communication prowess, with proven, organizational and strong mathematical abilities.*
